PROFESSIONAL SUMMARY

A Full Stack Developer focused on designing and delivering enterprise-grade software solutions. My work spans Entity Resource Planning (ERP), Payroll Management Systems, Human Resource Platforms, Business Process Automation, Taylor Made Solutions and scalable cloud-connected applications used by organizations to improve efficiency and decision-making.

I combine modern frontend technologies such as Vue.js with robust backend architectures built on Node JS, ASP.NET Core, Entity Framework, and SQL Server to create systems that are secure, maintainable, and built for long-term growth.

TECHNICAL SKILLS

- | | | | |
|-----------------|-------------------|---------------|-------|
| 1. Vue 3 | 2. Tailwind | 3. Node Js | 4. C# |
| 5. ASP.NET Core | 7. EF Core | 8. SQL Server | |
| 9. Azure | 10. AWS | 11. Docker | |
| 12. REST APIs | 13. Microservices | 14. Rabbi tMQ | |
| 15. Firebase | 16. Git | 17. GitHub | |
-

CORE TECHNOLOGIES

Vue.js · ASP.NET Core · Node JS · SQL Server

FOCUS AREAS

- Enterprise Software
 - Payroll
 - HR Systems
 - Taylor Made Software Solutions
-

FEATURED PROJECTS

1) Hatujambo Enterprise Payroll Management System

A comprehensive payroll platform supporting tax calculations, statutory deductions, payroll processing, payslip generation, and compliance reporting for large organizations.

Vue 3 **.NET** **EF Core** **SQL Server** **Tailwind**

2) Human Resource Management System

An HR solution covering employee records, leave management, recruitment workflows, performance tracking, and role-based access control.

Vue 3 **ASP.NET Core** **SQL Server**

3) Dynamic Authorization Framework

A flexible RBAC system allowing administrators to create custom roles, permissions, modules, and access policies without code changes.

Vue 3 ASP.NET Core JWT EF Core

4) Payroll Analytics Dashboard

Interactive payroll analytics featuring salary trends, tax summaries, compliance indicators, and workforce insights with real-time visualizations.

Vue 3 Chart.js ASP.NET Core API

5) Employee Self-Service Portal

A secure employee portal enabling access to payslips, leave requests, profile management, and company announcements.

Vue 3 Tailwind ASP.NET Core

6) Hatujambo Business Website

The official website for Hatujambo Enterprise, showcasing our services, solutions, and company information to potential clients and partners.

Vue 3 Pinia Tailwind
